

Partial Hospitalization Programs

Psychiatric and Dual-Diagnosis Adult Day Treatment

Therapeutic Day Treatment ... when inpatient is too much and outpatient is too little.

We are here to help individuals experiencing psychiatric or substance use conditions.

Our Partial Hospitalization Program can help patients make a smooth transition following inpatient care or can help patients when standard outpatient therapy has not been enough.

This short-term program meets five days a week from 9:00 am to 3:00 pm and allows patients to return home each day following treatment.

The program includes:

- Comprehensive evaluation/assessment
- Individual treatment plan
- Group therapy
- Psychoeducational groups
- Linkage with community support systems

***When you need help ...
